

A6 RK05 Tester Cable Adapter Board v1 ordering instructions

The following instructions serve as a guide to order RK05 Tester Cable Adapter Board printed circuit boards directly from JLCPCB.

Since building this board requires soldering only a small number of through-hole parts and some minor mechanical assembly, there is no need to have JLCPCB perform any of the assembly.

JLCPCB ordering options that are different from the default options:

- Click **"Add gerber file"** and upload the Gerber file:
"Gerber_RK05-Tester-Cable-Adapter-v1_2024-05-04.zip"
- *PCB Qty*: select the desired quantity
- *Surface Finish*: **ENIG**
- *Gold Fingers*: **Yes**
- *30° finger chamfered*: **Yes**
- Click **"SAVE TO CART"**
- Click **"View Cart"**
- Click **"Secure Checkout"** and enter the requested information. Choose the Shipping Method that best suits your delivery time and cost goals.
